Summer's Here

Monday was the first day of summer and also was the longest day of the year.

Summer arrived at 6:11 a. m., Richmond time, for at that moment the North Pole was tilted its greatest angle toward the sun.

Dr. T. C. Herndon, weather observer, reported today that Monday was also the hottest day of the year with the mercury soaring in the 90's.

CLUB HEARS G. CHUMBLEY

To be well informed is doubtless one of the prime objectives of your association, George L. Chumbley, adjutant, Jesse M. Dykes Post No. 12, American Legion, Richmond, told members and guests of the World Affairs club at its meeting held Thursday, June 17, in the Little Theater.

Speaking on the subject "Interpreting the News," he stated that "when you set out upon that quest you become a seeker after truth—an enterprise, like marriage, not to be entered into lightly," adding that the blessings lie in the continued quest for something that is so good that its attainment is beyond our reach and beyond our conception.

We must adopt methods of thinking that are not all sweetness and charity. They must be cold and ruthless, he declared.

"It becomes necessary to doubt. We have to become skeptics." Had men not taken the risk, long ago, of disbelief we would still be required to assent to the absurdity that the earth is flat.

"There is no such thing as mass thinking but there is mass opinion—mass prejudice," the speaker asserted.

In closing, Mr. Chumbley pointed out that it may not be amiss to say that in dealing with the news it is well to have a good working knowledge of history, geography and a good sense of the meaning of words. "I would urge you to be open minded yet frankly suspicious; neither dogmatic nor glib and above all to hold on with all your determination to a healthy sense of humor."

Mr. Chumbley is a graduate of The Citadel and of the School of Law, University of Richmond. Following his service with the U. S. Marine Corps in World War I, he returned to Richmond, Va., where he practiced law, later moving to this city. He is the author of several books.

Fielder Pitzer, newly elected president of the club, introduced the speaker.

GOP SELECTS THOS. DEWEY

CONVENTION HALL, Philadelphia, June 24 (Special)—The Republican national convention unanimously placed its presidential banner for a second time tonight in the hands of Thomas E. Dewey.

And proudly he accepted the nomination with a pledge to work for "freedom of men" everywhere in these times of "grave challenge."

The New York governor walked away with his personal victory on the third ballot of the 24th national convention—1094 to 0.

The party had decided to try to make a winner in 1948 of its 1944 loser. Exactly four years ago tonight the Republicans gave Dewey his first fling at the White House but he lost to an old master, Franklin D. Roosevelt.

Again as at Chicago in 1944, Dewey had thing his way almost from the beginning. He romped out ahead on the first ballot. On the second he raided opposition camps, lassoed stray votes from delegation after delegation and pulled to within 33 votes of the glittering goal of 548. And on the third ballot he was unanimously nominated.

Large Enrollment For First Summer Term

A total of 1,048 students are enrolled at Eastern Kentucky State College, it was announced this morning by President W. F. O'Donnell. This is the largest summer school enrollment in the past eighteen years with the exception of one year.

The elementary and Model High school divisions of the Training School will be in session the first term of the summer quarter. The first term will close Wednesday, July 14, and the second term will begin July 15, ending August 20.

In September, the college will return to the semester plan. The quarter system was adopted during the war to meet the need of men expecting to be called into service.

Regents Accept Bids For Work on Health Building

The Board of Regents of Eastern Kentucky State College held its regular quarterly meeting on the campus last Saturday afternoon. The following members were present: W. E. Blackburn, Pikeville; J. C. Codell, Winchester; Judge H. Clay Kauffman, Lancaster, and State Superintendent of Public Instruction B. B. Hodgkin. A. C. Jones, Harlan, recently appointed to membership on the board, was unable to be present since he was out of the state.

The board accepted the low bid of \$174,200 made by the J. D. Jennings Corporation of Louisville for the construction of the addition to the Weaver Health Building. The contract for heating, ventilating, plumbing and drains for this addition was given to the Whitehurst Plumbing Company of Ashland at its low bid of \$16,370. The Cutter Electric Company of Lexington was awarded the contract for the electrical work on their low bid of \$3,356. Work will begin immediately but, because of the shortage of steel, the building will not be completed before late in the winter.

AFTERNOON REFLECTIONS

REGISTRATION
BEGINS SOON

WASHINGTON, D. C., June 24 (Special)—Selective Service officials said this morning it is a safe guess that draft registration will start about August 16.

Actually drafting of men 19 through 25 may begin early in October, officials estimated. By that time, registration of men 18 through 25 should be finished.

The draft bill itself has not been signed by the President. Passed by Congress last Saturday, it has not reached the White House. Mr. Truman has 10 days to act after he gets it.

Induction date hinges on when the bill is signed. The legislation provides that no men will be drafted until the bill becomes law. Meanwhile, the flood of enlistments of draft age men in the National Guard is pushing the enrollment of the guard well beyond its quota fixed a few days ago.

Enlistments in the guard or in organized reserves of the Navy, Army or Air Force before the bill becomes law exempts a man from the draft.

Spokesmen thought today that guard enrollments may reach 375,000 by the end of this week. The earlier ceiling was 341,000. Its ultimate planned strength by 1952 is 682,000.

There is little likelihood that men already enlisted will be discharged, officials pointed out.

The size of the guard is determined to a degree by the amount of money available for its operation. Presumably it could ask Congress for more money in January.

On registration and the draft, Selective Service officials believe it will take about six weeks to set up machinery. This would put the deadline in mid-August.

Registration will be followed by the complicated task of classifying men for draft calls. Then would come the actual draft 90 days after the bill becomes law.

SLEEP STUDY
FUTURE GOAL

CHAPEL HILL, N. C., June 24 (Special)—Sleep influence may have an important place in education tomorrow. University tests suggest it can work.

There have been several efforts to teach during sleep. During World War I some 17 students who had had difficulty learning Morse code while awake learned to send and receive soon after they started sleeping next to a telegraph sounder.

In 1942, Dr. Lawrence Leshan, a psychologist at William and Mary College, used a repeating record in an attempt to make 20 boys stop biting their nails. He reported eight stopped the habit after they had listened to the record for 54 nights.

Now a young graduate student and instructor at the University of North Carolina after two years of experiments is convinced the brain can absorb useful sound during sleep.

The experimenter is Charles R. Elliott, who has concluded two years of experiments in which he found college men's memories were improved after sleep-instruction. In his tests, Elliott used a machine called the cerebograph, invented by Max Sherover of New York.

The cerebograph is an automatic phonograph which can repeatedly play special records for selected periods of time.

Elliott put the cerebograph to work in group tests.

Forty students from Duke University took part in his experiment. First, all were required to memorize a series of 15 three-letter words from a repeating phonograph record. Some knew

the words after 16 repetitions, one after 43. Then 20 students heard 15 new words during sleep. The other 20 men slept undisturbed. After awakening all learned the new words by heart.

Compiled results, Elliott says, showed students who heard words subconsciously while asleep learned more rapidly than those who did not. Both groups did better, due probably to previous practice. But the improvement of the sleep-hearers was 40 percent, against 27 for the others.

An important part of this experiment was the assurance that sleep-learners never knew words were spoken during the night. This complete unconsciousness was accomplished by turning on the cerebograph only when a brain wave charting apparatus showed them asleep, and also by removing tell-tale equipment from sight before the men awoke.

Both Elliott and UNC Psychologist Harry W. Crane, who supervised the test, believed sleep instruction very well might be an aid to awakened education—involving such subjects as foreign languages, mathematics, diction and many others.

NEW PHONE
RATE PLAN

Pointing out that additional revenue is imperative to good service in Kentucky, the Southern Bell Telephone Company has filed new schedules of rates with the State Public Service Commission to become effective July 16 under the provisions of state statutes.

J. M. McAlister, Kentucky manager, announced that the repricing of service is required to meet today's costs and assure a financially sound company capable of rendering the kind of service Kentucky needs and wants.

He revealed that the company's activities for continued good and expanding service have required expenditures of about \$20,000,000 for construction of new facilities in the 2½ years since January 1, 1946, and that an additional \$50,000,000 of new construction will be required in the next few years. The state manager emphasized, however, that continuing this improvement and expansion work depends upon the company's earnings being sufficient to attract the necessary new capital.

The telephone rates in effect in Kentucky today are the emergency rates established by the Public Service Commission last year after Southern Bell had requested only partial relief on an emergency basis. The emergency rates were not intended or expected to provide the earnings needed for a sound telephone company capable of continuing on with good and dependable service, Mr. McAlister said.

He continued, "In addition to the fact that only emergency relief was involved last year, the earnings under those rates have been lowered by continued cost increases. Even with last year's rate increases, revenue increases since 1939 have not kept pace with the increases in expenses, revenues now being 149 percent above 1939, and expenses 182 percent.

"The overall effect of all factors is that Southern Bell's earnings in Kentucky at present are running much too low to attract the capital needed to keep the company sound and the service good and dependable. The present earnings are only about 2.9 percent on the millions of dollars invested in telephone facilities providing service in the state."

Maroon Gridders Face Tough Schedule

SPORT SHOTS

By PAUL DUNCAN, Sports Editor

Recent Congressional legislation provided a heap of new worries for football and basketball coaches throughout America's colleges in the form of a new draft measure. The new draft going into effect may affect many young lads in their early college days.

Most coaches these days have been doing like Eastern cage mentor, Paul McBrayer, and grid coach Tom Samuels. They have been searching for new young talent.

However, the new military measure will probably step in and take hold of many young prospects who are just out of high school. In addition, the draft law may take many of those young lads who have just completed a year or two of college.

Whatever the developments are, you can bet your seat to the Western game that the coaches are having plenty of worries these days.

Several Maroon athletes recently received commissions as second lieutenants in the Army Reserve Corps upon completion of ROTC training. Included in the group of newly made "second Johns" are Gerald Becker, Joe Fryz, Paul Moore and Joe Dove. Nice going, fella's!

A quartet of varsity baseballers are playing semi-pro ball in Georgia. Currently appearing with a strong club in Sylva, Ga., are shortstop Ed "Slats" Lewicki, third baseman Roger Parsons and slugging outfielder Luther "Groceries" Wren.

Big Maroon hurler Ray Giltner is also playing in the Peach State. Ray is pitching for the Statesboro nine.

Some progress is reported on the scheduling of basketball games for the 1948-49 season. According to present reports, arrangements have been made to have Kansas State, Morehead and Louisville here. Additional arrangements are in making with Texas A. & M. and Denver University.

PAUL WARF

One of the welcome returnees to the campus is Paul "PR" Warf of Benham. Warf dropped out of school recently to take over the football coaching duties at Wayland High School.

The former Maroon football and basketball star is back at his studies these days working on his degree. He will report to Wayland late in August to resume his coaching duties. Good luck to you, Coach Warf!

TOUGH FOE—Pretty Jo Glover, Eastern junior class member from Louisville (left) dropped a tough match this week to Betty Rosenquest (right) of South Orange, N. J. The match was a first-round tilt in the Kentucky State Open tennis tournament held at the Louisville Boat Club. Miss Rosenquest is currently ranked among the leading amateur women tennis players in the nation.

PLAY NIGHT IS POPULAR

Under the sponsorship of the physical education class of Community Recreation, the play nights held on Monday nights in the Weaver Health Building are making quite a hit with students here.

The "fun nights" are an experimental plan of Charles Hughes' class in Community Recreation. It is planned that these programs will continue for the remainder of the quarter.

Many Features
For the enjoyment of those who attend, there are many recreational features, including shuffleboard, badminton, table tennis, paddle tennis, mixed swimming and dancing.

Folk or "barn" dancing has proven to be the most popular feature to date.

POOL HOURS ANNOUNCED

The following announcement was made this week from the office of the Athletic Director on swimming hours.

Men students are permitted to swim in the college pool on week days from 3:30 to 4:00 p. m. Women students are permitted to swim on Tuesday and Thursday nights from 7 to 9 o'clock.

Students interested in swimming are required to have lockers and must receive permission of the college physician or nurse before gaining admission to the pool.

Varsity Eleven Will Start Practice Sept. 1

By PAUL DUNCAN

Eastern's 1948 varsity football squad will take on a tough eleven game schedule next fall according to the card announced Thursday by Athletic Director Charles T. Hughes.

The Maroons will take on one of the toughest grid cards in the history of the college. Headed by Coach Tom Samuels, the varsity eleven will open their campaign in Cincinnati on September 18, against the powerful Musketeers of Xavier University.

Underdog Role

In the lid lifter the maroon and white squad will definitely be tagged as the underdogs. This tilt will be a severe test for the varsity gridgers because they will have only a 17-day period in which to prepare for the Musketeers. A conference ruling does not permit practice sessions to commence until September 1.

Home Opener

The first game at home in Hanger Stadium on September 24 will bring about a clash with Eastern Illinois State College. The following week the varsity invades Huntington, W. Va., for a battle with tough Marshall College. Last season the Big Green eked out a 7-6 win here.

On October 9, Murray State College's Thoroughbreds will appear here in the gala homecoming feature. Traveling to Bristol, Va., on Oct. 16, the Maroons will take on Emory and Henry College.

The remainder of the murderous schedule brings about games on consecutive weekend with Michigan State Normal, Morehead, Evansville, Western, North Illinois State and Southeastern Louisiana State.

The Schedule

Sept. 18—Xavier University, there.
Sept. 24—Eastern Illinois, here.
Oct. 2—Marshall, there.
Oct. 9—Murray, here (Homecoming).
Oct. 16—Emory & Henry, here.
Oct. 23—Michigan State Normal, here (pending).
Oct. 30—Morehead, there.
Nov. 6—Evansville, here (Dad's Game).
Nov. 13—Western, there.
Nov. 19—North Illinois, here.
Nov. 24—Southeastern Louisiana, there.

INTRAMURALS IN FAST START

By F. M. ROTHWELL

Intramural softball got off to a fast start this week with six teams competing in league play.

In the opening round of round-robin play on Tuesday night the Ramblers trounced the Jackson County nine by a 22-5 count. On the same bill, Harlan County topped the Mattoxville Plugs 18-11. The two other teams in the loop are the Independents and the Barracks.

Volleyball Play

Volleyball courts have been laid out next to the Weaver Health Building for student recreation and the possible formation of a volleyball league. Students interested in competing in a volleyball league are requested to contact Fred Darling at the Athletic Office.

JOE HARPER

HARPER RETURNS—Jumpin' Joe Harper, popular Maroon cager, is back in school this quarter resuming his studies. The London speedster is already working out in preparation for the coming basketball campaign.

AWARDS ARE ANNOUNCED

A group of 13 Eastern varsity track members earned awards the past season according to a bulletin released by the Athletic Department this week.

Three seniors, Gerald Becker, Cecil Rice and Goebel Ritter, will receive the traditional gold track shoe awards.

Included in the group of those who earned letters are Jack Bahlman, Bill Emmett, Harold Kittrell, Jake Linville, Charles Mrazovich, Harry Ratliff, Frank Rothwell, Russell Russo, Harry Grimme and Harry Sweesy.

The varsity thinlins were coached by Fred Darling the past season.

PETE NONNEMACHER

HOT DEBUT—Pete Nonnemacher, former Maroon football and baseball star, was red hot in his professional baseball debut. In his start at second base with the Wausau, Wisconsin, St. Louis Browns' farm club he blasted out two three-base hits in a game at Oshkosh.
